GirlScript Summer of Code'23   **Remote (India)**
Contributer   May 2023 – August 2023
- GirlScript Summer of Code is a **3-month long Open Source program** during summers conducted by **GirlScript Foundation**, it started in 2018, with an aim to help beginners get started with Open Source Development while encouraging diversity.
- Throughout the program, participants contribute to different projects under the guidance of experienced mentors.
- Top participants get exciting goodies and opportunities.
- Contributing to Projects listed on **GSSoC 23**!
- Contributing to projects in **MERN stack** and **GitHub action**!

PROJECTS

Weather_App_Page-Forcast   **August 2023**
[JavaScript, CSS, APIs]
- Created a **Web App** using JavaScript for Weather Forcast.
- Show the **current temperature** of any city in the world (with a current location button)
- Allows to research in real time the current and the **next 6 days** weather.

Yogagenie   **March 2023**
[JavaScript, React.js, APIs]
- Created a **Yoga pose suggestion** according to the problem faced by you all suggestions would be given by ChatGPT.
- Our mission is to provide you with credible information, resources, and guidance on the practice of yoga, so that you can experience its many benefits for yourself.
- Our website is designed to be a **comprehensive resource** for all things yoga. Here, you will find information on different yoga styles, poses, and sequences.
- Learn Yoga without paying expensive fees for yoga classes.
- **Reliable and Efficient** techniques.

[HackThisTune   **February 2023**
[JavaScript, React.js, APIs]
- Developed a music website to search and listen music using **Shazam APIs**
- Discover your next favourite hit, easily search for songs by genre, artist, and mood, and later listen on Shazam.
- Say goodbye to the hassle of shuffling through endless playlists - our website makes it simple to find the tunes you love.
- Join the party and let the music play on with our must-try music website.
- **Directly search** songs from the website.
